# SHARDA UNIVERSITY UZBEKISTAN

Sharda University Uzbekistan (SUUZ), established in 2019 in Andijan under a special Presidential Decree, is the first fully independent, private international university in Andijan and Fergana region in Uzbekistan envisioned to become gateway for students from Eurasia. Licensed by the Ministry of Higher Education, Science, and Innovation, SUUZ is the first offshore campus of Sharda University India—a globally recognized institution with students from over 95+ countries. Sharda University India is ranked 717 globally by the Times Higher Education Ranking.

What sets SUUZ apart is its international faculty, who bring a rich blend of academic depth and industry experience from around the world. The campus offers globally benchmarked programs in Applied English, Computer Science, Business, Economics, and Finance, supported by modern laboratories, smart classrooms, sports facilities, and innovation hubs. Through research-driven learning, entrepreneurship programs, and industry partnerships, students are empowered to become ethical, skilled, and visionary leaders not only for Uzbekistan but also for the global community.

## FACULTY OF MANAGEMENT

The Faculty of Management at Sharda University Uzbekistan is dedicated to developing future business leaders through innovative education and industry-oriented learning. The faculty offers undergraduate and postgraduate programmes including Bachelor of Business Administration (BBA), Bachelor of Science in Economics and Finance, and Master of Business Administration (MBA). These programmes combine strong academic foundations with practical exposure, equipping students with analytical, managerial, and leadership skills required in today's dynamic global business environment. With a curriculum aligned to industry needs and opportunities for specialization in areas such as Marketing, International Business, Finance, Human Resource Management, Data Analytics, and Entrepreneurship, the Faculty of Management prepares students to excel in corporate careers and entrepreneurial ventures.

## About the Conference

The International Conference on Navigating Green Economy through Innovations, Policies, and Strategies on Sustainable Practices aims to explore multidisciplinary solutions for advancing a sustainable and environmentally responsible economy. The conference brings together researchers, academicians, policymakers, industry experts, and practitioners to discuss innovative approaches, policy frameworks, and strategic initiatives that support sustainable development. Covering diverse tracks such as Environmental and Earth Sciences, Policy Law and Governance, Economics and Business Management, Engineering and Urban Planning, Health and Life Sciences, Information Technology and Artificial Intelligence, and Education and Society, the conference provides a platform for exchanging ideas and research on emerging sustainability challenges. Through keynote sessions, research presentations, and collaborative discussions, the conference seeks to promote innovative thinking, policy dialogue, and practical strategies that contribute to building a resilient and sustainable future.

## About Knowledge Partners / Collaborators

### TIAME

TIAME (The Tashkent Institute of Irrigation and Agricultural Mechanization Engineers) National Research University, established in 1934, is Uzbekistan's leading institution in engineering, agriculture, and environmental sciences, and was designated a national research university in 2021. The university offers over 40 bachelor's, 36 master's, and 21 doctoral programs, supported by advanced laboratories and strong international collaborations. It is globally recognized, ranking 501st in THE World University Rankings 2026 and 469th in QS World University Rankings 2026, while aiming to enter the top 300 globally by 2030. With a focus on sustainable development, digital innovation, and smart agriculture, TIAME plays a key role in addressing global challenges related to water, food, and climate.

### UNIVERSITY OF ECONOMICS AND PEDAGOGY - N GEO

University of Economics and Pedagogy (NGEO) is one of the young and modern higher education institutions in Uzbekistan, which began its activities on October 10, 2022. The university was established in partnership with the state and private sectors in order to develop the country's higher education system and introduce new approaches to the field. A large number of students, consisting of 6,382 students, are studying at the university, who are improving their experience and knowledge in economics, finance, accounting, tourism, pedagogy, philology, and a number of other areas. There are 131 professors and teachers at the university, including 5 professors, 24 associate professors, 40 doctors of science, and 6 candidates of science. All this easily demonstrates the quality of education at the university and provides its students with the opportunity to receive a high level of knowledge.

### ANDIJON STATE TECHNICAL INSTITUTE

Andijan State Technical Institute is one of the higher education institutions located in the Andijan region. It was established in 1976 as a branch of the Tashkent Institute of National Economy. The university has a total student body comprising 4,479 full-time, 4,979 part-time, 149 evening, 185 distance, 6 joint education, 10 international, and 186 master's students, supported by 5 faculties, 17 departments, 24 sections, and 2 centers. It employs 407 faculty members, including 17 professors (DSc), 171 associate professors (PhD), and 238 assistants/teachers, and is ranked 8th nationally in the Green Metric rankings.

### SRRN

The Silkroad Research Network (SRRN) is an academic initiative supported by Universitas Muhammadiyah Sidoarjo and Relawan Jurnal Indonesia to promote research collaboration across the Silk Road region. It provides access to extensive research resources and offers training in manuscript writing and journal management. The network also recognizes excellence through rankings and awards while supporting global publication opportunities. Additionally, it organizes joint conferences to foster knowledge exchange and partnerships. Overall, it serves as a hub for academic growth, collaboration, and cultural understanding.

## CONFERENCE THEME

The conference theme "Navigating Green Economy through Innovations, Policies, and Strategies on Sustainable Practices 2.0" highlights the growing need for sustainable solutions to address global environmental and economic challenges. It focuses on the role of innovative technologies, effective policies, and strategic management practices in promoting environmentally responsible growth. The conference encourages interdisciplinary discussions across areas such as environmental science, governance, business management, engineering, health, artificial intelligence, and education. By bringing together researchers, policymakers, and industry experts, the conference aims to foster collaborative solutions that support a resilient and sustainable green economy.
